
ICD-10 Non-Compliant Codes for Medicare Update

April 26, 2017

Effective April 26, 2017 when completing an Advanced Beneficiary Notice (ABN) in PathConnect, the person responsible for collecting and submitting the ABN will now be prompted to provide a signature upon completion.

The section of the *Medicare National Coverage Determination Coding Policy Manual (NCD Manual)* titled “Non-covered ICD-10-CM Codes for All Lab NCDs” has also been added to the PathConnect ordering process.

This section provides a detailed listing of all ICD-10 diagnosis codes that will **not** be covered by Medicare for diagnostic lab testing services. A medically necessary diagnosis code will be needed to finalize the order. Please visit the NCD website for reference:
