
Kathryn Knight, MD named CAP Speaker of the House of Delegates

Brentwood, TN – (Monday, November 12, 2018) Dr. Kathryn Knight, Medical Director for Women’s Health Services and Cytopathology for PathGroup Laboratories, was elected Speaker of the House of Delegates at the recent annual meeting of the College of American Pathologists in Chicago, Illinois. The Speaker is the principle officer of the House of Delegates (HOD), which is comprised of over 500 CAP members representing all 50 US states, the US Armed Forces and the Canadian provinces. Originally conceived as a separate body within the College in the late 1950s, the HOD has evolved to become a high profile and proactive organization, representing the voice of CAP membership and functioning as a gateway to leadership within the College. The HOD ensures that CAP policies and initiatives meet the needs of its Delegates and, by extension, College membership. It is designed to elevate member concerns on critical issues facing pathologists and the future of the specialty and is charged with conveying those to the Board of Governors.

In addition to her role as Speaker, Dr. Knight is a voting member of the CAP Board of Governors, a member of the Executive Committee of the Council on Government and Professional Affairs, on the Board of PathPAC, and a member of the CAP Compensation as well as Bylaws Committees. She has served as Vice Chair and Chair of the Federal and State Affairs Committee, is the former President of the Georgia Association of Pathologists, and is the CAP State Issue Advisor for Tennessee. With a long standing interest in health care policy, Dr. Knight continues to be actively involved with the CAP annual Policy Conference in Washington, DC.

Join us in congratulating Dr. Knight on this achievement.

About College of American Pathologists (CAP)

As the world's largest organization of board-certified pathologists and leading provider of laboratory accreditation and proficiency testing programs, the College of American Pathologists (CAP) serves patients, pathologists, and the public by fostering and advocating excellence in the practice of pathology and laboratory medicine worldwide. For more information, read the 2017 CAP Annual Report at CAP.ORG.
