
Test Update: Transition of FIBROM to FIBRO

Adam Meyer, MD, Associate Medical Director, Clinical Pathology Services

September 12, 2019

Effective September 22, 2019, PathGroup will discontinue the Liver Fibrosis, Chronic Viral Hepatitis test (Test Code: FIBROM) and will replace it with the Liver Fibrosis, Fibro Test-ActiTest Panel (Test Code: FIBRO). The Liver Fibrosis, Fibro Test-ActiTest Panel is substantially equivalent to the Liver Fibrosis, Chronic Viral Hepatitis test for the non-invasive evaluation of chronic viral hepatitis patients for the presence of liver fibrosis and/or liver inflammation.

DISCONTINUED		NEW	
TEST CODE	TEST NAME	TEST CODE	TEST NAME
FIBROM	Liver Fibrosis, Chronic Viral Hepatitis	FIBRO	Liver Fibrosis, Fibro Test-ActiTest Panel
