

## Test Update: Test Code and Specimen Requirement Changes Cystine, Urine (CYSTE)

**September 1, 2020**

Effective immediately, PathGroup will discontinue Cystine, Urine Random (Test Code: CYSTE) and replace it with Cystine (Quantitative), 24 Hour Urine (Test Code: CYSQTU). The CYSQTU test is clinically equivalent to the previous version but requires 24 hour urine collection and two Ask at Order Entry (AOE) questions during ordering.

There are no CPT code changes associated with the test transition.

For additional information, please refer to the PathGroup Directory of Services at <http://www.pathgroup.com/clinical/testing-menu/>.
