

Test Update: Phospholipase A2 Receptor (PLA2R)

Adam Meyer, MD, Associate Medical Director, Clinical Pathology Services

September 14, 2020

Effective **September 23, 2020**, PathGroup will discontinue the use of test Phospholipase A2 Receptor Antibodies, Serum and replace it with **Phospholipase A2 Receptor Antibody, IgG (Test Code: PLA2R)**. The updated test is clinically equivalent to the previous version.

The update also includes new methodology, new reference range and an additional option to reflex to titer, which will add a billed CPT code if reflexed. The test code will remain the same. Details of the updates to PLA2R are outlined below.

	OLD	NEW
Test Code	PLA2R	PLA2R
Test Name	Phospholipase A2 Receptor Antibodies, Serum	Phospholipase A2 Receptor Antibody, IgG
Methodology	ELISA	IFA
Reference Range	<14: Negative 14-19: Borderline >19: Positive	>1:10: Positive
CPT Codes	86255	86255; If reflexed, add 86256
